Career Related Experience

Travel

- I had a lot of experience traveling during my time as a sign technician. I would fly to varies locations across the country to stay at hotels near job locations for extended periods of time. I don't travel as much now but it is something I wouldn't be uncomfortable with.

Relevant Hobbies

- I have designed many graphics using both code and graphic design software.

Hardware and software

- I have varied degrees of practice in a multitude of code languages. Such languages include visual basic, Java, C++, Linux, Html, CSS, JS, Python and MIPS assembly. I have also used several integrated development environments such as visual studio and eclipse.
- Practiced work with development applications such as blender and unity.
- I am accustomed to UML diagrams
- Currently I am working on a web based game application with a small group of students.
    - Meet using discord practicing agile style work doing sprint with cards for project management via Trello.
- I have some degree of experience with cyber security and Database management systems.
- Some practice in electrical engineering and computer architecture.
